

U.S.S.N. 09/127,411
GRUENBERG
ELECTION AND PRELIMINARY AMENDMENT

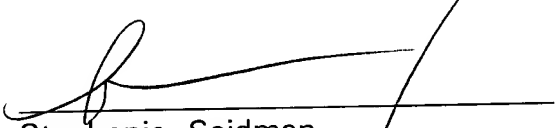

With respect to claims 39 and 40; each combination of reagents results in Th1 cell expansion. As described in the application, expansion in the presence of INF results in differentiation into predominantly Th1 phenotypes.

* * *

In view of the remarks herein, examination of the application on the merits is respectfully requested.

Respectfully submitted,
HELLER EHRMAN WHITE & McAULIFFE LLP
